

GLOBAL HEALTH CONFERENCE

M3 MOBILIZING MEDICAL MISSIONS 2022

FEB. 18

HOSTED VIRTUALLY FROM HOUSTON, TX

*Connect with others.
Be inspired.
Find your mission.*

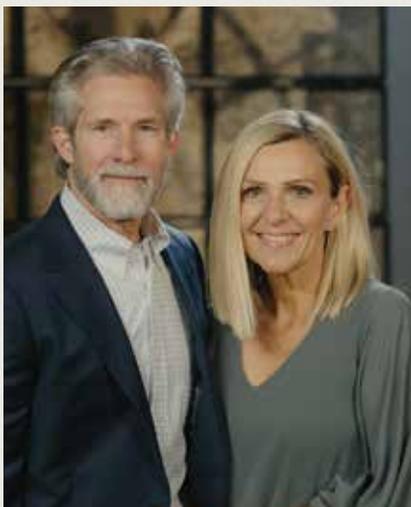

GLOBAL HEALTH CONFERENCE

Dear Friends,

We are so glad that you have chosen to be a part of our 2022 Mobilizing Medical Missions (M3) Conference. Despite the challenges the past couple of years have posed that have led us to host another year virtually, we still believe that this year's conference will be very encouraging and impactful.

Our evening starts with Tim Mosher, a nurse practitioner who is actively serving on disaster relief teams around the globe. Tim will share about developing resiliency to help us be better equipped in medical missions and disaster response settings. Next, Dr. Nicholas Comminellis will discuss the world's most vulnerable people and how we can get involved with effectively empowering them. We will then hear from missionaries, Dr. Keir and Joanna Thelander, who served many years on the mission field with their children in Gabon, Africa. They will discuss the benefits and challenges of taking your family on the mission field. Our last speaker, Bob Goff, will deliver a timely message entitled, "Undistracted." He'll encourage us to recognize the distractions in our lives that are hindering us from living out our vision with joy and meaning.

Even though we may not be meeting in person for a full two-day conference, the mission of M3 has not changed. First, we want to provide a space for those who are interested in global missions to be able to **connect with others** who share the same passion. Second, we hope you will **be inspired** as you hear from men and women who are giving their lives to make a difference all around the world. And third, we pray that God will speak to your heart and show you how you can **find your mission**— we have [partner organizations](#) that offer opportunities to serve both domestically and abroad to work on a variety of social disparities from healthcare to human trafficking.

Again, thank you for joining us for our virtual conference. We hope you will engage in our live chat discussions and speaker Q&A's; focus in on what God is saying to you through our speakers; and take the next step to connect with one or more of our partner organizations to find your mission. We pray you would open your heart to whatever God has for you at M3 this year.

Many blessings,

Paul & Jennifer

Dr. Paul and Jennifer Osteen

MOBILIZING MEDICAL MISSIONS

Speaker Session 01

Developing Resilience for a Missions Calling – A Story of God’s Redeeming Grace

Tim Mosher, APRN-CNP, MSN, RN, EMT-P

Medical care personnel are driven by a high level of compassion for those who suffer physically and emotionally. The intensity of medical missions can strain compassion to a breaking point. You will hear a story of how one caregiver found God’s grace to be the ultimate power for coping with pain and building deeper resilience for future serving.

From Disaster to Durability

Nicholas Comninellis, MD, MPH, DIMPH

Disasters, epidemics, and public health crises continue to burden this new century: Puerto Rico’s Hurricane Maria, Yemen’s cholera epidemic, Flint Michigan’s lead poisoning. The heartening response from many is to devote personal time, talent, and treasures to rescue and assist those in crisis. But even well-intentioned efforts have limitations. We must move beyond a rescue mentality and pursue those interventions that build more resilient communities. These interventions often include economic development, improved basic education, and highly efficient health initiatives. Throughout, we must equip local leaders with vision and skills to continue building strength from within their own communities.

Speaker Session 02

A Family in a Foreign Land

Dr. Keir and Joanna Thelander

How God took us from “Why?” to “Why not?” and how He allowed our family to thrive and not just survive in the jungles of Gabon, Africa.

Undistracted

Bob Goff, Keynote Speaker

Bob will discuss how to live Undistracted in your calling and purpose. He'll encourage folks to recognize the distractions in their lives that are hindering them from living out their vision with joy and meaning.

THE 2022 M3 CONFERENCE BENEFITS
THE M3 PROJECT OF THE YEAR

Empowering through quality, non-exploitative, person-centered HEALTH care accessible to all, especially women and children

The Problem

India is a country of great divides. Those who are born in a low caste, who are female and have an impoverished economic status, suffer triple discrimination due to being stigmatized for statuses beyond their control. They are vulnerable to abuse and denied access to basic quality healthcare. COVID-19 has intensified these disparities with many left as orphans, in crippling debt and without crucial family members.

The Mission

The Good Shepherd Church of India runs healthcare and human trafficking prevention projects to protect and empower the most vulnerable. We envision a day when every man, woman and child in India is free to be fully human.

The Solution

Freedom is an illusion unless you have basic health and liberty. Good Shepherd HEALTH CARE works with local communities to provide a four-tier system focusing on the needs of women, children, Dalit (untouchables), ritual sex workers, and other marginalized groups.

The Impact

Good Shepherd has directly impacted close to 10 million people over the last decade through health awareness, primary health care, early referrals, and nutrition support. Its unique feature is a focus on community development with an emphasis on the prevention of violence against young girls by preventing and stopping child marriage and sex and labor trafficking.
